This school year, Student Leadership, which is hosted by Mr. Chan, Mrs. Wood, and Mrs. Choo aims to be a partner in the Blair community. Approximately fifty Blair students have made a dedicated commitment in joining this year’s student leadership group. Our very large group won’t always meet in a large group. Instead, student leadership members are organized into cohort groups. Each of these groups will be focusing on either the school community, local community, or the global community.
We will also be looking at the Kouzes and Posner leadership acronym “MICEE” (Model the way, inspire a shared vision, challenge the process, enable others to act, and encourage the heart), in which we will be applying these principles to the things that we do.

The Student Leadership Team is modelling the way by creating and participating in initiatives that impact the community. For example, Blair Student Leadership team are supporting initiatives that include local, global, and school community. That models the way for others to positively impact change. Modelling the way is also demonstrating leadership qualities to developing leaders.

The Student Leadership Team is inspiring a shared vision by including everyone’s ideas into one shared vision of leadership. Inspiring a shared vision is also helping others imagine exciting future possibilities.

The Student Leadership Team is also challenging the process by improving and making new initiatives every year to help our local and global community. Always coming up with even better ideas to help build on different leadership initiatives.

The Student Leadership Team is enabling others to act by encouraging others to help with their goals. (E.g donate or volunteer) in different ways. Enabling others to act also means inspiring and encouraging others to participate in these good deeds.

The Student Leadership Team is encouraging the heart by making presentations and posters to encourage others to make a difference in the world. Encouraging others to do good deeds to make the local and global community for all.
